

EPA launches first skimmer boat to keep canals, rivers clean

Pilot project in Lahore Canal to assess performance before expansion across Punjab

By Amjad Mahmood

LAHORE: In a major step towards tackling plastic pollution, the Environmental Protection Agency (EPA) of Punjab has launched its first skimmer boat or trash skimmer, designed to remove plastic waste from canals and rivers.

The boat will begin operations as a pilot project in the Lahore Canal, marking the introduction of a technology-based solution to address water pollution in the province.

The announcement was made during a seminar held here on Friday to mark the International Plastic Bag Free Day. Parliamentary Secretary for Environment Kanwal Liaquat attended the event as the chief guest while EPA Punjab Director General Dr Imran Hamid Sheikh was the guest of honour.

The EPA officials said the skimming boat installed with waste collection bin on its front would play a vital role in collecting floating plastic waste from waterways and supporting the province's broader campaign against plastic pollution. They said the pilot project in Lahore Canal would help assess the effectiveness of the technology before its potential expansion to other canals and rivers across Punjab.

The seminar brought together government officials, environmental experts, representatives of

industry, civil society organisations, media personnel and other stakeholders. Participants renewed their commitment to avoid use of banned plastic bags and supporting efforts to make Punjab environmentally sustainable.

Highlighting the achievements of the anti-plastic campaign, the officials said more than 50,000 business owners had pledged not to use banned plastic bags. They added that enforcement teams had confiscated over 600,000kg of prohibited plastic during the campaign and imposed fines exceeding Rs20m on violators.

Dr Imran Hamid Sheikh stressed that practical measures were essential to eliminate plastic pollution, saying that the real challenge would begin after the pledges as commitments needed to be translated into concrete action. He reaffirmed the EPA's determination to eliminate banned single-use plastic bags from Punjab, saying that the enforcement teams would continue their operations against violators across the province.

The DG EPA said the anti-single-use plastic campaign would be further strengthened through technology-driven and data-based monitoring systems to improve enforcement and ensure compliance. He urged citizens to refrain from using banned plastic bags and support environmental protection initiatives.

He noted that implementation of the Punjab Plastic Management Strategy 2023 was continuing, with the registration of producers, sellers, waste collectors and recyclers underway to establish a more effective plastic waste management system.

Kanwal Liaquat said field enforcement was a difficult

but essential national responsibility. She made it clear that environmental violations would not be tolerated under any pressure or recommendation and expressed pride in the EPA's field teams for their efforts in enforcing environmental laws. She also called on citizens, industries, non-governmental organisations, media organisations and civil society groups to work together with EPA Punjab in achieving the goal of making Punjab a plastic-free zone.

The seminar concluded with a collective pledge by participants that a plastic-free Punjab is a shared responsibility and requires the active participation of all segments of society. The launch of the skimming boat was widely viewed as a significant milestone in the province's ongoing efforts to curb plastic pollution and protect its waterways and environment.

Karachi Water & Sewerage Services Improvement Project
(Project Implementation Unit)
Karachi Water & Sewerage Corporation
40-G, Street 40, Block 6 PECHS, Karachi, Pakistan
Telephone: +92-21-34374081, +92-21-99330279

REQUEST FOR EXPRESSION OF INTEREST (REOI) FOR SELECTION OF INDIVIDUAL CONSULTANTS

1. The Karachi Water & Sewerage Corporation (KW&SC) have received a loan through EAD, Government of Pakistan from the International Bank for Reconstruction and Development (IBRD) / Asian Infrastructure Investment Bank (AIIB) and the counterpart share of funds from GOS for the Project Implementation Unit (PIU), Karachi Water & Sewerage Services Improvement Project (KWSSIP-II).

2. The PIU, KWSSIP intends to apply part of the proceeds to make eligible payments against the services of following candidates as individual consultants at PIU, KWSSIP.

01	Manager Procurement/Contracts (01 Position)
	- Bachelors (16 years of education) degree from an HEC recognized or international university in Engineering, Law, Business Administration or any other relevant degree along with Masters in Engineering or Business Administration or international certification/diploma in public procurement/supply chain. - A minimum of 10 years of specific experience in procurement and contract management. - Preference will be given to candidates with experience on major civil and mechanical works projects. Prior exposure to the Contract/procurement management practices of the World Bank or other multilateral development partners will be considered a strong advantage - Extensive experience with FIDIC contracts, large-scale procurements, including contract administration. - Strong capability in claims evaluation, dispute resolution, and serving impartially and competently on Procurement Evaluation Committees.
02	Senior Social Development Specialist (01 Position)
	- Master's degree or above in social sciences (e.g. development studies, sociology, human geography, urban studies, anthropology or any relevant subject) from a recognized university. - At least 10 years or above of experience including but not limited to working with communities, community mobilization and engagement. Relevant experience in the preparation of or assisting in the preparation of community or stakeholder engagement/mobilization strategies or plans, participatory development plans. - Experience in resettlement management, implementation of social safeguards and preparation of or assisting in the preparation of at least 5 resettlement plans for infrastructure projects Experience in urban settings would be an advantage. - Strong knowledge of relevant Federal, Provincial, and local laws, standards, regulations, and policies such as those pertaining to land acquisition and resettlement, labour management and protection, special protection legislation, mechanisms and provisions pertaining to women and vulnerable and marginalized groups. - Strong knowledge of the social safeguards/ social risk management policies and environment and social frameworks, and compliance requirements of IFIs (e.g. World Bank, Asian Development Bank, Asian Infrastructure Investment Bank, JICA etc.)
03	Technical & Engineering Associate (Civil) (02 Position)
	- Bachelor's degree in Civil Engineering or equivalent from a Higher Education Commission (HEC)-recognized university. - Minimum of 05 years of professional experience in major civil works projects. - Demonstrated technical and engineering expertise in planning, design, preparation of technical specifications, bidding documents, and construction supervision. - Experience with the technical management practices of the World Bank or other multilateral development partners will be considered a strong advantage. - Valid membership and/or registration with a recognized professional engineering body is mandatory.
04	Technical & Engineering Associate (Electro-Mechanical) (01 Position)
	- Bachelor's degree in Mechanical or Electrical Engineering, or an equivalent discipline, from a Higher Education Commission (HEC)-recognized university. - Minimum five (05) years of relevant professional experience in the planning, design, and implementation of major infrastructure or civil works projects. - The candidate should have strong technical and engineering skills and experience in assisting planning, design, preparation of specifications and bidding packages and construction supervision. - Prior experience with the technical management practices, procurement, or contract administration of the World Bank or other multilateral development partners will be considered a distinct advantage. - Valid membership and/or registration with a recognized professional engineering body is mandatory.
